

Dear Search Committee:

It is with great enthusiasm that I submit this application for the Assistant Professor position in the department of \_\_\_\_\_ at the university of \_\_\_\_\_. I recently received my PhD in Biomedical and Health Informatics in University of Wisconsin Milwaukee in 2022. I'm looking forward to contributing my talents to your research and teaching community.

My biomedical informatics and computer science background makes me a great fit for this position. This includes 1) my expertise in biomedical informatics, an interdisciplinary area across engineering and healthcare. 2) My successful teaching records in the past 9 semesters for 2 courses, covering undergraduate and graduate levels. 3) Strong publication records in prestigious journal and conferences (e.g. IEEE Conferences, Journal of Biomedical Informatics, and Applied Clinical Informatics journal, etc.) 4) My previous experience in industry, so I understand what industry really need to future students. 5) Leadership records in mentoring students, organizing initiatives, and advising students.

I have demonstrated a fantastic track of successful record in teaching. I'm aspiring to be an influencer in my lecture. I enjoy teaching classes about introduction to health care informatics, statistical courses, and medical research methodologies. I'm particularly interested in helping students for their own independent work. Regarding mentorship, I look forward to having students in my current research project. I'm also happy to collaborate with future colleagues, fellows to spark new ideas.

I enclosed my curriculum vitae, research, teaching and diversity statements for your review. Please also check my personal website [here](#). I would appreciate it if you would like to speak to me by phone or in person for the Assistant Professor position. Thank you for your kind consideration.

Yours sincerely,

Ling Tong, PhD

Department of Health Informatics and Administration

College of Health Sciences
