

Dear Search Committee:

It is with great enthusiasm that I submit this application for the Assistant Professor position in the department of \_\_\_\_\_ at the university of \_\_\_\_\_. I recently received my PhD in Biomedical and Health Informatics in University of Wisconsin Milwaukee in 2022. I'm looking forward to contributing my talents to your research and teaching community.

My biomedical informatics and computer science background makes me a great fit for this position. I will bring: 1) My expertise in biomedical informatics, an interdisciplinary area across engineering and healthcare. 2) My excellent teaching records in the past 9 semesters for 2 courses, covering undergraduate and graduate levels. 3) Strong publication records in prestigious journals and conferences (e.g. Journal of Biomedical Informatics, IEEE Conferences, and Applied Clinical Informatics, etc.) 4) My previous industry experience gives me the insight what industry really need for healthcare students. I can build students' skill sets in college for the professional career. 5) Leadership records in mentoring students, organizing initiatives, and advising students.

I enclosed my curriculum vitae, research, teaching and diversity statements for your review. Please also check my personal website [here](#). I would appreciate it if you would like to speak to me by phone or in person for the Assistant Professor position. Thank you for your kind consideration.

Yours sincerely,

Ling Tong
